.NET developer (OJT)   **FPT Software (FHN.GEN)**   **Sep 2023 – Dec 2023**

- **Scope of work:**
  - Joined the training program given by mentor
  - Supported a team in developing and implementing backend functions
  - Joined team meetings
- **Outcome:**
  - Finished training program
  - Successfully developed and implemented backend functions

PERSONAL PROJECTS

Full-stack developer   **Drinking Game**   **May 2024 – June 2024**

- **GitHub:** https://github.com/DucMinhNguyen2911/drinking-game
- **Descriptions:** Developed an engaging and interactive online drinking game, leveraging modern web technologies to provide a seamless user experience. The game allows players to select from various card sets, each with unique challenges and prompts. Players can score points by completing tasks or take a drink and pass the turn if they opt out. The project includes features for both free and premium users, with premium tiers offering additional capabilities like creating custom card sets and playing unique sets generated from OpenAI.
- **Link:** https://ducminhnguyen2911.github.io/drinking-game/
- **Tech stack:**
  - **Back-end:** ASP.NET Core API with JWT authentication (Azure), Entity framework, OpenAI API, Redis
  - **Front-end:** React, Redux, HTML, CSS, Material UI
  - **Database:** SQL Server (Azure)

Full-stack developer   **To do list**   **Jul 2023**

- **GitHub:** https://github.com/DucMinhNguyen2911/todolistapi
- **Descriptions:** This is the website for managing user's tasks and projects online. Users can create, organize, and prioritize their to-do lists with ease. Users can also set deadlines, reminders, and progress reports.
- **Link:** https://ducminhnguyen2911.github.io/todolist/
- **Tech stack:**
  - **Back-end:** ASP.NET Core API with JWT authentication (Azure), Dapper ORM

- **Front-end:** React, Redux, HTML, CSS, Bootstrap
- **Database:** SQL Server (Azure)
